Introduction

What can you expect from being a member on the Provider Advisory Council?

- Meet and discuss improvements with a council of your peers to build strong relationships
- Provide feedback on future Delta Dental technology, products or programs
- Share your thoughts and suggestions with Delta Dental to generate insights
- Share specialized expertise and industry knowledge to improve patient care and outcomes
- Influence change in the industry

Who can join?

Membership:

There will be three membership tiers that comprise the PAC. Members will be required to apply for consideration to participate in one of the tiers. Membership will be representative of Delta Dental's industry footprint and modeled after our current network in enterprise states, incorporating providers, and their practice associates, from different specialties, geographies, and organizational sizes. Members who are representing as practice associates must have access to a practicing provider to seek clinical input from time to time.

Membership Term:

Each member, regardless of the tier, will be accepted for a one-year term with an option to continue for an additional year, upon mutual agreement.
