Course Synopsis & Objectives

Comprehensive Overview of Oral Pathology

Ashley Clark DDS

SYNOPSIS:

This course will provide the general dentists with a comprehensive review of oral pathology. Common entities, oral cancer, and ulcerative conditions will be discussed; a particular focus will be made on oral squamous cell carcinoma and prevention of this malignancy.

OBJECTIVES:

Upon completion of the course, you will be able to identify:

- Identify potentially malignant disorders
- Discuss common lesions affecting the oral cavity
- Discern chronic ulcerative conditions and when a biopsy is necessary
- Discuss how to manage patients with potentially malignant disorders and common oral pathology
