

# Delta Dental Community Care Foundation

## 2022 California Giving

In 2022, Delta Dental and the Community Care Foundation granted \$15,255,277 within the state of California.

The Community Care Foundation is committed to building caring, resilient communities by increasing access to oral health care. Since 2011, the Community Care Foundation has dedicated more than \$100 million to improving oral health across its enterprise, including 15 states and Washington, D.C. By investing in the four focus areas below, the Community Care Foundation is helping to ensure that everyone, regardless of their background or location, has access to quality oral health care.

**Access to Care grants:** Fund organizations working to increase access to care, address health disparities and drive oral health equity, and promote innovation in the oral health field.

**Senior Oral Health Program:** A multi-year initiative to identify, assess and address the socioeconomic and systemic causes of poor oral health among older adults.

**Education and research grants:** Support our partnerships with universities to increase inclusiveness in the education and development of future dental professionals.

**Community investments:** Focus on supporting local organizations through health equity, social justice and disaster relief efforts.

### California Partner Spotlight

Since 1976, LifeLong Medical Care has provided lifesaving health and social services to diverse low-income populations in the San Francisco Bay Area's East Bay. Despite the challenges of the COVID-19 pandemic, LifeLong Medical Care provided care to more than 56,000 people in 2021 - including those experiencing homelessness and suffering from chronic conditions. Because of support from the Community Care Foundation, LifeLong Medical Care can open an advanced dental clinic in East Oakland with seven operatories. The clinic will provide much-needed dental care to older adults, while also offering a unique opportunity for LifeLong Medical Care dental providers to receive advanced training in AEGD accreditation and specialized treatments such as oral surgery, endodontics and prosthodontics. With this grant funding, LifeLong Medical Care is helping to ensure that vulnerable populations have access to quality oral health care.
