

Delta Dental Community Care Foundation

2022 West Virginia Giving

In 2022, Delta Dental and the Community Care Foundation granted \$205,000 within the state of West Virginia.

The Community Care Foundation is committed to building caring, resilient communities by increasing access to oral health care. Since 2011, the Community Care Foundation has dedicated more than \$100 million to improving oral health across its enterprise, including 15 states and Washington, D.C. By investing in the four focus areas below, the Community Care Foundation is helping to ensure that everyone, regardless of their background or location, has access to quality oral health care.

Access to Care grants: Fund organizations working to increase access to care, address health disparities and drive oral health equity, and promote innovation in the oral health field.

Senior Oral Health Program: A multi-year initiative to identify, assess and address the socioeconomic and systemic causes of poor oral health among older adults.

Education and research grants: Support our partnerships with universities to increase inclusiveness in the education and development of future dental professionals.

Community investments: Focus on supporting local organizations through health equity, social justice and disaster relief efforts.

West Virginia Partner Spotlight

Since opening in 1985, Wheeling Health Right (WHR) has become nationally recognized for providing care to the uninsured and underinsured in Brooke, Ohio, Marshall, Wetzel and Tyler Counties in West Virginia, and Belmont County, Ohio. WHR serves more than 27,000 community members each year. Funds from the Community Care Foundation are used to provide quality, affordable oral health care for those who are uninsured and underinsured, as well as enable the expansion of services to include periodontal treatments. As a comprehensive primary care clinic, WHR unites dentists, physicians, nursing staff and dental hygienists to deliver holistic care to their patients. The Community Care Foundation's support of WHR's Dental Clinic is an essential part of their mission to provide care to those who, due to inequalities and disparities, would otherwise have no access to dental or medical care. WHR helps ensure that those they serve can remain employed and active members of the community.
