

2025

Investing in Communities

Our impact in California

The Delta Dental Community Care Foundation is committed to building caring, resilient communities by increasing access to oral health care.

Since 2011, the Foundation has invested more than \$200 million to improve oral health outcomes across 15 states and Washington, D.C. Guided by four strategic focus areas, the Foundation advances access, equity and innovation to help ensure quality oral health care for all communities.

In 2025, Delta Dental and the Community Care Foundation granted \$15,695,175 within the state of California.

Access to Care

We fund organizations working to expand access to oral health care, reduce health disparities, advance oral health equity and support innovative approaches that improve outcomes for underserved communities.

Senior Oral Health

A multi-year initiative focused on identifying and addressing the social, economic and systemic factors that contribute to poor oral health among older adults, with the goal of improving access to quality care as people age.

Future of Dentistry

We support partnerships with universities and dental schools to strengthen the education, training and inclusiveness of the future oral health workforce.

Community Investments

We invest in local organizations advancing health equity, social justice and community resilience, including support for disaster response and recovery efforts.

California Partner Spotlight

“Our partnership with Delta Dental has been transformative for the communities we serve. With 97% of our patients living at or below the federal poverty level, their support of our new clinic in Watsonville will allow us to serve an additional 3,000 patients annually. Delta Dental’s investment means more kids focusing on school instead of a toothache, more adults smiling confidently in job interviews, and more seniors enjoying the nutritious foods they need to thrive. This is what dignity through dentistry looks like, and Delta Dental is helping make it possible.”

-Kristyn Glenn, Development Director
Dientes Community Dental Care
