Investing in Communities

Our impact in Delaware

The Delta Dental Community Care Foundation is committed to building caring, resilient communities by increasing access to oral health care.

Since 2011, the Foundation has invested more than \$200 million to improve oral health outcomes across 15 states and Washington, D.C. Guided by four strategic focus areas, the Foundation advances access, equity and innovation to help ensure quality oral health care for all communities.

In 2025, Delta Dental and the Community Care Foundation granted \$85,000 within the state of Delaware.

Access to Care

We fund organizations working to expand access to oral health care, reduce health disparities, advance oral health equity and support innovative approaches that improve outcomes for underserved communities.

Senior Oral Health

A multi-year initiative focused on identifying and addressing the social, economic and systemic factors that contribute to poor oral health among older adults, with the goal of improving access to quality care as people age.

Future of Dentistry

We support partnerships with universities and dental schools to strengthen the education, training and inclusiveness of the future oral health workforce.

Community Investments

We invest in local organizations advancing health equity, social justice and community resilience, including support for disaster response and recovery efforts.

Delaware Partner Spotlight

“Sussex County, Delaware, is one of the largest counties in the country by square-miles. It also has been designated a medically underserved area. The community’s need for dentistry far outpaces the number of dentists in our community. La Red Health Center’s partnership with the Delta Dental Community Care Foundation has been critical in allowing us to bring on a new dentist who can help more people access dental care in Sussex County. We are incredibly grateful for their commitment to helping us serve rural communities like ours.”
