# Investing in Communities

Our impact in Maryland

**The Delta Dental Community Care Foundation is committed to building caring, resilient communities by increasing access to oral health care.**

Since 2011, the Foundation has invested more than \$200 million to improve oral health outcomes across 15 states and Washington, D.C. Guided by four strategic focus areas, the Foundation advances access, equity and innovation to help ensure quality oral health care for all communities.

**In 2025, Delta Dental and the Community Care Foundation granted \$295,630 within the state of Maryland.**

### **Access to Care**

We fund organizations working to expand access to oral health care, reduce health disparities, advance oral health equity and support innovative approaches that improve outcomes for underserved communities.

### **Senior Oral Health**

A multi-year initiative focused on identifying and addressing the social, economic and systemic factors that contribute to poor oral health among older adults, with the goal of improving access to quality care as people age.

### **Future of Dentistry**

We support partnerships with universities and dental schools to strengthen the education, training and inclusiveness of the future oral health workforce.

### **Community Investments**

We invest in local organizations advancing health equity, social justice and community resilience, including support for disaster response and recovery efforts.

## Maryland Partner Spotlight

“I just could not leave today without saying how much I truly appreciate you. I’ve had dental work before, and when it was done, I would just say thank you and leave. You have a very special quality about you that no other dentist I’ve ever been to in my life has. You care and show deep concern for your patients and their well-being. Thank you, Dr. Woodward, for the great work you’ve done to bring back a smile I thought I would never have again.”

**-Addie Taylore, Patient**

Chase Brexton Health Services
