

2025

Investing in Communities

Our impact in Pennsylvania

The Delta Dental Community Care Foundation is committed to building caring, resilient communities by increasing access to oral health care.

Since 2011, the Foundation has invested more than \$200 million to improve oral health outcomes across 15 states and Washington, D.C. Guided by four strategic focus areas, the Foundation advances access, equity and innovation to help ensure quality oral health care for all communities.

In 2025, Delta Dental and the Community Care Foundation granted **\$1,883,366 within the state of **Pennsylvania**.**

Access to Care

We fund organizations working to expand access to oral health care, reduce health disparities, advance oral health equity and support innovative approaches that improve outcomes for underserved communities.

Senior Oral Health

A multi-year initiative focused on identifying and addressing the social, economic and systemic factors that contribute to poor oral health among older adults, with the goal of improving access to quality care as people age.

Future of Dentistry

We support partnerships with universities and dental schools to strengthen the education, training and inclusiveness of the future oral health workforce.

Community Investments

We invest in local organizations advancing health equity, social justice and community resilience, including support for disaster response and recovery efforts.

Pennsylvania Partner Spotlight

“[C]ommunities are experiencing a real public health need that impacts children, families, and overall well-being. We are committed to helping students from these areas gain a fast, affordable pathway into an in-demand healthcare career and empowering them to return home to make a difference. Our goals are simple: train motivated students, break down financial barriers, support local communities and improve access to critical dental care across the state.”

-Ann Hoffman, Dental Program Director
Central Penn College
