- Set costs (also known as copayments) for covered dental services
- No waiting periods on any covered procedures, even major services
- Low or no copays for diagnostic and preventive care

To use the plan, enrollees need to see their chosen DeltaCare USA dentist. But don't worry! If they need emergency dental care, even when they're away from home, they'll be covered by an emergency services provision.¹

How does DeltaCare USA work?

If you're familiar with HMO-style insurance plans, you'll find DeltaCare USA easy to understand.

When enrollees visit their chosen DeltaCare USA dentist for care, they'll just pay the copayments listed in the plan documents for any covered services they receive. Because there are no waiting periods or deductibles (minimum amounts they must pay before the plan will begin helping with costs), they can make the most of their benefits the first day coverage begins.

Enrollees won't need an ID card to get care. They just give their information to the dentist and the dentist can find their coverage.

Important tips

- Enrollees should visit their chosen DeltaCare USA primary care dentist for care. It's easy to change dentists anytime online or by phone.²
- Enrollees can find a DeltaCare USA dentist near them with <u>Find a Dentist</u> <u>search</u>. The built-in Yelp® and DentaQual® ratings will help them find a dentist they'll love.

Read the policy carefully. This brochure provides a brief description of the important features of the policy. This is not the insurance policy and only the policy provisions will control. The policy itself sets forth in detail the rights and obligations of both you and your insurance company. It is therefore important that you read the policy carefully.

² Changes received between the first and 15th of the month are effective immediately. Changes received on the 16th through the end of the month will be effective on the first of the next month.
