How does Delta Dental PPO work?

Delta Dental PPO is a dental insurance plan that helps you pay for covered dental services. After you meet your annual deductible (a set dollar amount you pay out of pocket), Delta Dental will pay a portion of your bill (up to your annual maximum).[2] You won't need an ID card to get care. Just give your information to your dentist and they can find your coverage.

- Visit any dentist for care, but save the most with a Delta Dental PPO dentist. PPO dentists accept reduced fees and won't charge you more than your expected share of the bill.
- Kids can use their full benefits immediately. Adults may have a waiting period for some services. Check your plan highlights for details or **the Health Care Exchange (Marketplace) plans page** for more information.

When you want a plan that will help cover your costs while offering you the freedom to see the dentist of your choice, choose a Delta Dental PPO plan.

This benefit information is only a summary and is not intended to replace or serve as the plan policy.
