

Get check-ups remotely with Delta Dental – Virtual Consult and Toothpic

Want to get checkups remotely? If you're covered under a Delta Dental PPO™ or Delta Dental Premier® plan, you now have access to new tools that will let you do that: Delta Dental – Virtual Consult and Toothpic.

With Toothpic, you just have to take and submit a few photos of your mouth and answer some questions to get advice from a Delta Dental dentist anywhere, anytime. Once you submit your photos, you'll get a personalized diagnostic report in under 24 hours.

Virtual Consult lets you schedule live video appointments with a Delta Dental dentist from anywhere you have video capability and an internet connection. Dentists can provide an assessment of your issue, offer treatment instructions, prescribe medication and follow up, all remotely.

Both are available at no added cost if you have 100% coverage for diagnostic and preventive services.

Virtual exams are subject to the same frequency limitations, deductibles and maximums as in-person exams. Please note that the availability of Virtual Consult providers may vary by state. Appointments are subject to availability.

Visit deltadentalins.com and search for “virtual dentistry” to learn more or get started.
