10	25	31	57	64
6	20	44	52	68

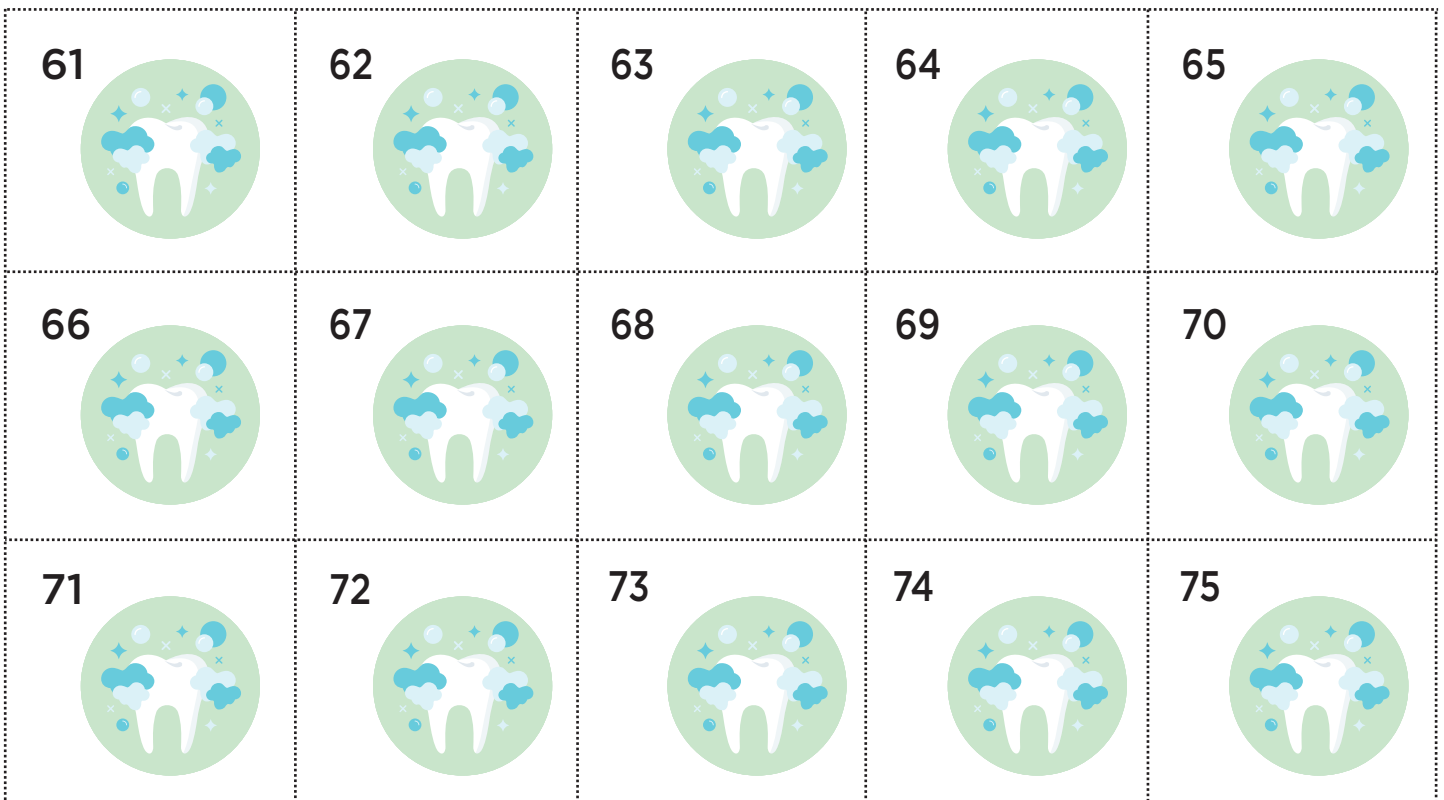

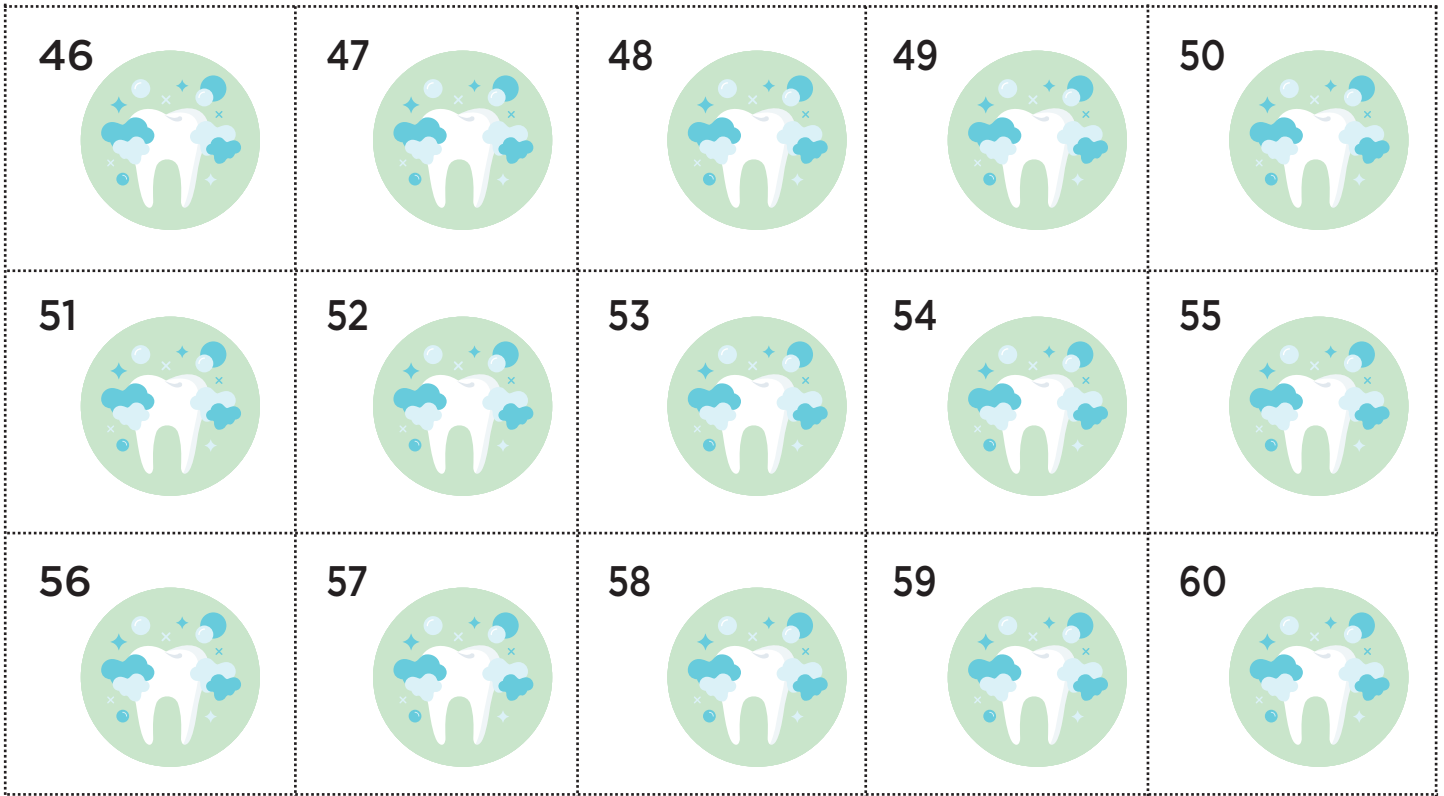

Let's get started!

- Print these pages.
- Cut out each square
- Put all the **numbered squares** in a box (or any other container) and shake it up.
- Pick someone to call out characters and numbers.
- If you have a match, cover your number with money from the tooth fairy.
- Pick another number out of the box and call it out.
- To win, you need to fill in one row or column — up, down or diagonally.
Once you do this, yell “Bingo!”

Money markers: Use these to cover numbers on your Bingo card that have been called.
