Delta Dental Day 2024: Update on Periodontitis & Peri-implantitis

UCSF

UCSF School of
Dentistry

Saturday, April 27, 2024
9 am – 4 pm

UCSF Parnassus Campus
513 Parnassus Ave, San Francisco

Richard A. Nathan, DMD,MS

Clinical Professor, UCSF School of Dentistry

This course will provide a practical overview of surgical and non-surgical periodontal techniques for teeth and implants. Topics will include a discussion of the etiology and pathogenesis of periodontitis and peri-implantitis, indications and legal ramifications of non-surgical periodontal therapy, the latest developments in chemotherapeutics, and an extensive overview of laser periodontal therapy for teeth and implants. ■ 6 CEUs

 **DELTA DENTAL**

Delta Dental is a registered trademark of Delta Dental Plans Association.

BENEFITS

- Understand the role of the immune system in the progression of periodontal and peri-implant disease.
- Learn when it is appropriate to refer your patients to the periodontist.
- Learn how to effectively diagnose, prognosticate and treat periodontitis and peri-implantitis.
- Learn the basics of the “non-surgical crown lengthening technique.”

LEARNING OBJECTIVES

- Diagnose and treatment of periodontitis and peri-implantitis.
- Learn about determining a periodontal prognosis.
- Learn how to determine at what point teeth should be extracted and implants placed.
- Learn about laser therapy in periodontics.

SPEAKER

Richard Nathan, DMD, MS
